PICNIC

MADE FRESH

Using quality ingredients, our chefs prepare all of our entrées, side dishes, and desserts right in our kitchen.

HOT OFF THE GRILL

Guests eat fresh, grilled-to-order meats that our on-site chefs prepare from the grills and propane we provide!

THERE'S ALWAYS PLENTY

We calculate our portions at a minimum one and a half entrées per guests. You can be sure everyone leaves your picnic satisfied.

ALWAYS ON TIME

We promise to arrive as scheduled—ready to serve on time.

ALL STAR STAFF

By hiring, training, and managing our own staff of service professionals, we're able to provide added assurance of a well planned and flawlessly executed picnic.

EXTENDED SERVICE

Our experience shows that 1 hour just isn't enough time to serve a hungry crowd. We bumped our standard food and beverage service to 2 hours to allow for mingling and good time for all.

GREEN HEADS

We're conscious of all the waste a picnic can produce. As a result, we've transitioned virtually all of our guestware to compostable and biodegradable from a local supplier.* Additionally our kitchen composts all of our food scraps from prep daily and our offices recycle!

*We continue to use a standard disposable cup due to their resilience in the warm summer sun.

Please note, there is a \$2,000.00 minimum on all orders.
